TAYCA CORPORATION

Poster presentation at IFSCC International Cosmetics Conference

In September 2026, our company will present its latest research findings at the IFSCC Congress 2026, the world's largest academic conference on cosmetic science organized by the International Federation of Societies of Cosmetic Chemists (IFSCC). Although the IFSCC Congress 2026 will be held in person in Perth, Australia, our research was selected for a poster presentation from among numerous submissions worldwide. Details regarding the presentation will be released following the conference.

■ Presentation title

Invisible Zinc Oxide For UV Protection
- Optimized Particle Design And Surface Treatment To Achieve Excellent
Transparency Comparable To Organic UV Absorbers

■ Society overview

Date : from September 28, 2026 to October 1, 2026.
